Better late than never! It seems our May/June Newsletter was a little slow going out this time!

Bon Voyage!

This time of year many families go on vacation. We've got a couple of hints to assist you with cloth diapering away.

Vacations for less than one week

If you are going on vacation for only a few days, consider taking cloth diapers with you. A wet bag is an asset to being away from home with cloth diapers - even for a day. Try [WeeWillieWinks](#) for some wet bags. You can bring your diaper pail liner along with you to keep at your "home away from home" to store soiled diapers in.

Vacations for longer than one week

We ask that you do not travel with our diapers if you will be gone for longer than a week. Soiled diapers should not sit any longer than one week, they just end up too smelly and stained! However, find out if there is a diaper service in the area you will be visiting. Many diaper services will offer short term vacation service to those visiting the area.

**Eco-Diaper Service offers vacation service to families visiting the area, at our regular rate of \$18.95 per week!

When you do have your vacation plans finalized, please let us know at least one week in advance. Often we may have to schedule an extra pick up to collect diapers before you leave, or an extra delivery to ensure you have clean diapers upon your return.
